PERSONAL SUMMARY

An IT student that loves to learn, sharing every new technique, never gives up when face to face with hard work.

PROFESSIONAL EXPERIENCE

Python Django Web Application

October 2019 – December 2019 (2 months)

- Create a web application for real estate and e-training scenario.
- I am providing functions of the web such as pagination, search, log-in, register, alert message, contact form, admin site, cart.
- Create an environment and deploy the web application on the host with pythonanywhere.
- Create test case for web application.

Linear Regression

September 2019 – December 2019 (3 months)

- Create a data preprocessing template to read the data file CSV, encoding the categorical data, split data to the training set and test set.
- Fitting simple linear regression to the training set and then predicting the test set results
- I am visualizing the training set result with a chart.
- Fitting Multiple Linear Regression the training set and predicting the test set result
- Building the optimal model using backward elimination.

SKILLS AND COMPETENCIES

Data analyst skills:

- . Preprocessing data with encoding categorical data and take care of missing data.
- . Predicting the dependent values.

Architect skills:

- . Architecture modeling for Cloud Computing services using Draw.IO, Visio.
- . Analyze customer pain points and prepare a basic proposals to help the customer achieve a well architecture.

Programming skills:

- . Application programming (Django, Python,).
- . Experienced with RDBMS system including (MS-SQL, MySQL, MS Access).
- . Web programming & designing (HTML, CSS, PHP).

DESIGN ROLE

- Internship for Data Analyst/ Business Analyst role

ACADEMIC QUALIFICATIONS

BSc (Hons) Computer Science
Greenwich University 2017 – 2019

CERTIFICATIONS

- . Certificate of Completion AWS Certificate Solutions Architect – Associate 2020 online course.
- . Certificate of Completion Python Django Dev to Deployment online course.

COURSE COMPLETION

- . AWS Certificate Solutions Architect – Associate 2020 online course
- . Python Django Dev to Deployment online course
